BARAN POLAT

COMPUTER ENGİNEER

Throughout my school life, I have always been engaged in projects, both individually and as part of a group. I am highly open to learning and development. I believe that I can effectively utilize what I know and quickly learn what I don't know.

- UDEMY --> SQL SERVER/Ömer Çolakoğlu
- UDEMY --> Flutter/ Kasım Adalan

ABOUT ME

I was born on April 24, 2000. Although I have been a licensed athlete in fields like football and swimming since childhood, I have always been curious about computers.
